It moves faster than the minute hand, so the result is that it's always [url=http://www.rolexreplica.me.uk/]rolex replica uk[/url] the wrong time, which is annoying because I continue to have to reset the Rolex replica. What good is a [url=http://www.rolexreplicasuk.org.uk/]rolex replica uk[/url] that doesn't tell the right time? At this point, I've just left it on my dresser table. I'm sad to have wasted \$150 on something that doesn't [url=http://www.2013replicawatch.co.uk/]replica watches sale[/url].
