### Three Internationally Prominent Scholars Visit Taiwan and Introduce the Present Status of Neuroscience

ELSI in Taiwan invites three internationally prominent scholars to Taiwan for interflow: Professor Owen Flanagan (James B. Duke Chair, Professor of Philosophy, Duke University, Joint appointments in the Departments of Neurobiology and Psychology), Professor Patricia Churchland (Member of the US President's Council on Bioethics, UC Presidential Chair in Philosophy, MacArthur Foundation Research Fellow Genius Award Winner), and Professor Neil Levy (Director of Oxford Centre for Neuroethics, Senior Research Fellow of the Centre for Applied Philosophy and Public Ethics). They give various speeches and hold a conference together in National Chengchi University on 5th-Jan, 2009, meeting and having dialogues with scholars and students. The next day three of them give speeches together in a conference held in National Science Council and chaired by Academician Ovid J. L. Tzeng, who is a respected psychologist and recognized for his achievement in cognitive neuropsychology, particularly his extensive analysis of cognition and memory system. Both of the two conferences are well participated, and there are a lot of discussions regarding neuroscience and its impact on society, morality and philosophy.
