[Popular Sci-Education][Post-disaster Reconstruction] NSC Solicits Popular Sci-education Projects for Morakot Victims ([Chinese Version](#))

Awakening News Network (2009/10/20) In order for the Morakot victims to be spiritually enriched with the edutainment activities and to feel accompanied by the care of the academic on their way of homeland reconstruction, National Science Council (NSC) announces the solicitation for "2009 Popular Sci-education Projects for Morakot Victims" (trans. temp.), inviting young scholars with aspirations to take part in the post-disaster reconstruction. Professor at National Chengchi University Yu-fen CHIEN and Academia Sinica Academician Chung-Ho WANG urge as well that the scholars should get united to help out the victims in South Taiwan.

NSC expresses, the proposals wanted are not topically restricted; the proposals are welcome in so far as the programs are carrying out sci-education for students or families in disaster areas, and can be coped or cooperated with relocation or transit centers, communities and schools. The sci-educational activities have to be designed for eight-eight flood victims and also the relocated and resumed students in the non-disaster areas. Besides, to assure these projects' continuous effect of care and counseling, the activities should be held at least once per month.

"NSC Popular Sci-education Projects for Morakot Victims" has special interest in counseling and psychological reconstruction; it is especially welcome if the director, co-director or affiliated director is so competent. Owing to the urgent need, the approved projects had best begin the execution within one month after the approval letter has been received, and complete the whole plan in one year.

The solicitation has begun and the due date is 30th-November 2009. People with interest may submit the proposals via the NSC website.
