New City

New Taipei City has vast territories, spanning 2052 square kilometers of 29 District. Within its borders is a wealth of difference, particularly when it comes to a sweeping expanse of mountains and cliffs that form the Taipei Basin walls making for natural resources and a rich array of vistas. The northern face of Taiwan's coastline in New Taipei City is 120 kilometers and it has gorgeous sea brinks and beachheads. In recent years, officials have exerted a great deal of effort to update and continuously clean our coasts so that all visitors can leap in the waves and admire the horizons.

CSS

```
h1{ font-size:60px; } img{ margin:20px; float:right; }
```
